## 03C121065B Radiator Water Coolant Pipe For AUDI A3 VW Passat GOLF

Our Product Introduction

### Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 03C121065B
- Minimum Order Quantity: 10 PCS
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-30 days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

### Product Specification

- Application: Radiator Water Pipe
- Temperature Rating: 150
- Size: Standard
- Pressure Rating: 1.6MPa
- Brand: OEM

## Product Description

### Product Description:

We are thrilled to introduce our superior Water Coolant Hose Water Pipe. This critical component is specially designed to transport coolant fluid throughout your vehicle's cooling system with maximum efficiency and performance.

We have engineered our water coolant hose water pipe with precision and durability to ensure reliable cooling. Our innovative design makes certain that you receive the highest quality, longest-lasting product conceivable. Our water coolant hose water pipe can handle even the most challenging conditions and maintain optimal performance.

When you choose our water coolant hose water pipe, you are choosing a top-of-the-line solution that you can rely on. Don't take chances with less dependable alternatives - choose our water coolant hose water pipe for unparalleled performance.

### Features:

**Superior Construction:** Our water coolant hose water pipe is created using top-notch materials, such as reinforced rubber or silicone, that are highly resistant to heat, pressure, and coolant chemicals. This construction ensures strength, flexibility, and long-lasting performance even in demanding operating conditions.

**Efficient Coolant Flow:** The water coolant hose water pipe plays a crucial role in circulating coolant fluid between the engine, radiator, heater core, and other cooling system components. This facilitates the transfer of heat away from the engine, ensuring proper engine temperature regulation and preventing overheating.

**Leak and Burst Resistance:** Our water coolant hose water pipe is designed to withstand high pressures and temperature fluctuations, minimizing the risk of leaks or bursts. It features reinforced layers and sturdy connectors that provide a secure and reliable connection, enhancing the overall integrity of the cooling system.

**Temperature and Chemical Resistance:** The water coolant hose water pipe is engineered to withstand extreme temperature variations and exposure to coolant chemicals. It resists deterioration, swelling, and cracking, ensuring consistent coolant flow and preventing coolant contamination.

**Easy Installation:** Our water coolant hose water pipe is designed for straightforward installation, suitable for both professional mechanics and DIY enthusiasts. It is a direct fit replacement for your vehicle's original water pipe, ensuring compatibility and a hassle-free installation process.

**Quality Assurance:** Our water coolant hose water pipe undergoes rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by trusted suppliers who prioritize quality and performance, providing you with a reliable and durable product.

### Technical Parameters:

Application	Radiator Water Pipe, Automotive Coolant Pipe, Cooling System Tube
Temperature Rating	150
Brand	OEM
Size	Standard
Pressure Rating	1.6MPa

### Support and Services:

The Radiator Water Pipe product is designed to provide a reliable and efficient cooling solution for your vehicle's engine. Our technical support team is available to answer any questions you may have about the product, including installation, maintenance, and troubleshooting. We also offer a range of services to ensure that your Radiator Water Pipe is working at its best, including regular inspections, cleaning, and repairs. Our team of experts is committed to providing you with the highest level of service and support, so you can be confident in the performance and reliability of your Radiator Water Pipe.

### FAQ:

#### 1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

#### 2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

#### 3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

**A large of stock**

**Professional export company**

**Accept small order**

**We can design anything well according to customers' requirment**
